

Mission

We must be able to regularly manufacture and provide automotive parts that meet the needs and requirements of our customers, as well as applicable legal and regulatory requirements.

Vision:

We want to maintain our position of world leadership within the companies of the automotive spare parts sector.

Values:

For over 20 years, **STC** has been embodying the following values as a starting point for his actions:

- Improving on continuous technological monitoring and innovation.
- Offering products with a reliability equivalent to official pieces at a more competitive price.
- Maintaining a high level of service.
- Providing and adding value to our customers based on specialized technical support.
- Involving our suppliers creating relationships based on honesty and cooperation.
- Satisfying all the customers' requirements in compliance with the manufactured product ones.
- Promoting the procedures of continuous improvement and optimization of our processes.
- Encouraging teamwork and making it a valuable contribution to the company's development.
